

# participation request form

The Medicare Prescription Payment Plan is a payment option that works with your current drug coverage to help you manage your out-of-pocket costs for drugs covered by your plan by spreading them across the calendar year (January-December). **This payment option might help you manage your expenses, but it doesn't save you money or lower your drug costs.**

This payment option **might** not be the best choice for you if you get help paying for your prescription drug costs through programs like Extra Help from Medicare or a State Pharmaceutical Assistance Program (SPAP).  
Call your plan for more information.
